## **RegPerfect 8.1.0.1.1 is Available Now!**

Teledyne Monitor Labs (TML) is excited to announce the release of RegPerfect v8101.1! This release builds on the Rpv8101.0 release (released 03/01/2024) and includes:

- Updated user manuals and release notes.
- Updates to entering PM ACA tests.
- Updates to XMLPrint and printing Daily Backstop elements.
- Updates to EDR Generator and JSONPrint and entering and printing Unit Info records for a Quarterly Compliance Report (JSON file format only).

Please contact Tech Support for more information and to find out how to get this latest version.
